PROFESSIONAL SUMMARY

Technical Writer, Subject Matter Expert and IT Analyst with 5+ years across systems administration, enterprise support and product documentation. I investigate complex technology, turn findings into practical guidance for different audiences, and use AI-assisted workflows to improve research, authoring and review. My background includes server and database resources, identity and access, software configuration, device enrollment and mobile device management. As a senior technical writer on the team, I lead online help deliverables for SOTI MobiControl, the company's flagship product.

SKILLS

Documentation	DITA/XML, Oxygen XML Author, API and release documentation, WebHelp/HTML5, information architecture, peer review
AI & automation	Claude, ChatGPT/Codex, Microsoft Copilot, Copilot Studio, Power Automate, Python, PowerShell, reusable agent skills
Systems & servers	Windows Server, Active Directory, Microsoft Entra ID, Exchange Server, DHCP/DNS, IIS, virtual machines, SCCM, SQL Server; basic Oracle setup
Research & delivery	Jira, Figma, Git/GitHub Enterprise, Umbraco 17, DITA-OT, XSLT, Ant, Android, iOS/macOS, Windows, Apple Business Manager

PROFESSIONAL EXPERIENCE

Technical Writer II

Mar 2026 - Present

SOTI Inc. | Mississauga, Ontario

- Lead SOTI MobiControl online help deliverables and help facilitate team initiatives and projects, coordinating research, authoring, review, validation and release readiness.
- Built an AI-assisted authoring workflow joining Jira, Figma, implementation details and existing help; used it to prepare a complete 2027.0 starting draft for writers to verify and refine.
- Developed an AI peer-review skill from approximately 2,500 historical Git review comments, then refined its guidance against final human edits.
- Vibe-coded a custom Umbraco 17 authoring tool, used the Umbraco Workflow plugin for selected reviews, and built migration/export utilities for structured content, media, links and context help.
- Created Jira-to-Figma retrieval and documentation-quality checks for broken links, media, tables and migration differences; mentor junior writers through guides and reusable tools.

Technical Writer I

Apr 2024 - Feb 2026

SOTI Inc. | Mississauga, Ontario

- Researched, wrote and delivered structured online help and release documentation with DITA/XML, Oxygen XML Author, Git and WebHelp/HTML5, working with Product, Development, QA and engineering SMEs.
- Turned dense reference content into task-focused guidance for Apple enrollment, FileVault recovery, REST API access, Android Enterprise Wi-Fi and other product workflows.
- Coordinated the SOTI MobiControl 2025.1 documentation project with three other writers while managing a substantial task load; contributed templates, training and review practices.

EARLIER EXPERIENCE

Technical Support Specialist / Level 2

Aug 2022 - Mar 2024

SOTI Inc. | Mississauga, Ontario

- Served in a senior Level 2 support capacity, investigating escalations through cases, server/application logs, Android ADB, Event Viewer and SQL Server Management Studio.
- Supported SOTI MobiControl across Android, Apple and Windows environments; also supported SOTI Connect, SOTI XSight and SOTI Identity, including integrations, permissions and directory access.
- Worked with server upgrades, virtual machines, firewalls and customer environment cloning; mentored Level 1 specialists and maintained an overall NPS of 94.
- Authored 60+ Project Sherpa knowledge-base articles with 140+ case attachments and some of the highest internal view counts across SOTI products.

Technical Support Specialist / Level 1

Jan 2022 - Jul 2022

SOTI Inc. | Mississauga, Ontario

- Provided front-line enterprise support for device-management, access and configuration issues; progressed to Level 2 in August 2022.

Service Desk Support - Co-op, then Part-time Contract

Jan 2021 - Dec 2021

RWDI | Guelph, Ontario

- Administered Active Directory, DHCP/DNS, print services, user access, Exchange Server 2019 and Outlook; supported remote administration and registry recovery.
- Handled mail flow, shared mailboxes, distribution lists and permissions; re-imaged computers, upgraded hardware and configured MFA and OneDrive on company phones.

SELECTED WRITING IMPROVEMENTS

- FileVault: replaced reference-heavy material with recovery-key choices, prerequisites and a guided procedure.
- REST API access: expanded a short procedure into guidance on permissions, OAuth, requests and responses.
- Android Enterprise Wi-Fi and Apple enrollment: added guided steps, visual support and clearer decision paths.

SELECTED PROJECTS

Custom DITA/XML authoring tool. Built a runnable stopgap for structured authoring and review when Oxygen licensing limited access; team managers used the package.

Reusable AI workflows. Packaged generalized Jira and peer-review skills and developed a source-grounded documentation drafting workflow.

EDUCATION & RECOGNITION

Honours Ontario College Diploma, Computer Systems Technician - Network Systems (Co-op) | Mohawk College, 2020 - 2022

Recognized for coordinating writers on the SOTI MobiControl 2025.1 documentation project, customer focus, process improvement and support for colleagues.
